DEMENTIA DIAGNOSTIC CLINICS IN SOUTHEASTERN WISCONSIN

Obtaining an accurate diagnosis of progressive memory loss or cognitive changes is often the most important first step made by individuals and families in their efforts to secure the education and support needed to cope with Alzheimer's disease or the symptoms of dementia. Diagnostic clinics provide evaluation and management services to individuals and their families. A typical individual will undergo neuropsychological testing, a comprehensive history and physical examination, laboratory and, if appropriate, x-ray testing during the evaluation. The involvement of a social worker is a routine and essential feature.

The listing of clinics starts with Milwaukee County then follows alphabetically with the surrounding Counties in Southeastern Wisconsin

**Milwaukee County**

**Veterans & Spouses of Veterans**
Clement J Zablocki VA Medical Center serving Milwaukee County & surrounding Counties  
5000 West National Ave  
Primary Care Clinic Main phone number is 414-384-2000  
Veterans or veteran’s spouses must first be seen at the Primary Care Clinic and then one can request a referral to the Neurological & Memory evaluation clinic.

**NOTE:** 1. Medical Providers outside the VA System: If the veteran or spouse also has an established Physician and or other Medical providers outside the VA Medical services system, it does not mean that the member or spouse has to give up these providers. It does mean that the veteran or spouse has to be seen at least 1x a year at the VA Primary Care clinic.

2. **Medications thru the VA** are often much cheaper than thru Medicare D.

**Health Care Benefits Overview**

VA publishes the "Health Care Benefits Overview" booklet, which is designed to provide general information and frequently asked questions about VA’s medical benefits package available for all enrollees, and other information such as eligibility for enrollment.

The publication is available to you at the Milwaukee VA Medical Center, and can be downloaded at [http://www.va.gov/healthbenefits/resources/epublications.asp](http://www.va.gov/healthbenefits/resources/epublications.asp).

**Note:** Here are links for additional information on Memory Loss clinics listed in other Wisconsin Counties:

**Alzheimer’s Association of Wisconsin**
24/7 Helpline 800-272-3900  
This helpline is staffed 24/7 by Masters level prepared counselors who have expertise in all areas of dementia. Caregivers and professionals alike are free to call and seek assistance. HIPAA best practice: When calling, an IDT can share information about a situation without providing any identifying member PHI.
